# Hangar Talk

Issue 03 – 07 March 2007

---

## ***From the Prez'*** ***Club President Stan Durnal***

### *"Moving Forward"*

I'm sorry to say that "Persistent Bob" did not survive his debut on skis.  
*(For newcomers to the club, "Bob" is the old Aerostar trainer done up in left-over red/white/blue covering following many repairs).* It was named after Bob Edson, (first owner) a former JCRCF member lovingly remembered for his persistence. Hence "Persistant Bob". I thought "Bob" was in front of some trees on final, but actually was behind them. You can imagine the outcome. He's not rebuildable from my standpoint, but will become a donor. "nuff said"

I wish to thank those who participated in the mall show last month, for braving the snow & cold to put on an excellent display. Top honors go to Billy Thompson for his magnificent Pup on display. The simulators again provided onlookers with a "hands on" experience with R/C. A big "thank you" to those who provided them for our use. It seems the crowd was down a bit, and it probably had something to do with the weather.

Next on the agenda will be the swap meet on March 10<sup>th</sup> at the Bartholomew Co. Fairgrounds. This event continues to grow, as it provides an excellent outlet for equipment just "taking up space in the workshop". Come on out and enjoy a little camaraderie, as well as a "tall tale" or two. The kitchen will be set up, so come hungry. I'm assuming the flyer will be accompanying the newsletter, so I won't go into too much detail. As always, anyone living nearby who can assist with set-up, it would be appreciated. Traditionally we put out tables & chairs at 6:00pm on the evening before. If you have questions, please contact Denny or myself.

Thanks to our VP Mike Bryant for handling the last club meeting in the absence of Denny and myself. Apparently all went well, and it's appreciated.

As always: "Fly Safe, Have Fun".

Regards,  
Stan

**Safety Officer- Steven Maxwell**

I went to the park meeting on March 1<sup>st</sup> and met the new park director Chris Johnston and assistant Drew Eggers. All I have to say are these guys are going to be great and are very approachable. I'm looking forward to a very good working relationship with both.

One thing that the board did say was we won't be seeing these guys out mowing or picking up trash, but are to administer duties for the employees.

On a side note there maybe a boat club joining the park possibly at the old beach lake which will be closed for swimming this year. I did get to talk with the boat people and they seemed very nice, and assured me that the boats will only be on surface frequencies. (75 and 27 MHZ)

A Sergeant Major Roy Zenor was there from Atterbury to discuss having a health fair for not only the military as in the past, but open to the public as well.

Of course the question came up about Atterbury taking over land. He had no inside information but did say that the park was always part of the total picture for Atterbury planning and I got the feeling that the Base will always like to have the park open as is to the public. I did talk briefly with him about our working relationship with the UAV programs going on at the base and he had knowledge of this, and is very happy we have such a good working relationship.

We should be looking forward to a great future at the field. Please feel free to forward this information to other people.

*Steven Maxwell*  
*Safety Officer*

**From the Editor**  
**Don Glick**

Hello everyone. I don't have much to add this month in regards to my regular rambles, instead I'm giving up my space in this months Newsletter to forward all of you an email that I received from Barb in regards to the passing of Larry Middleton...

*(From Barb & Tony to the RC Community)*

*As some of you know Larry Middleton passed away on Feb 10 after a two year plus battle with cancer. Tony and I would like to take this time to thank everyone in the RC community for all your support. Your genuine concern is greatly appreciated.*

*It was always our desire that the hobby shop be a good gathering place for friends as well as customers. We hope it will continue to be such a place*

*Thank you for all the prayers, good wishes, thoughts and everything.*

*Barbara and Tony Middleton*

**The VP's Perspective**  
**Club Vice President Mike Bryant**

Well here it is... I had the last meeting to run and I think it went well. As I stated in the meeting I think we who was at the Mall-Show had a good time this year.

Support for the show was down this year and not sure why. Functions of this type are good for the hobby and should not be forgotten and need to be there for the hobby to stay alive and we should support it with the same passion as Model Aeronautics i.e. (flying your models). The Modelers are the voice of the hobby.

With that said we have the swap meet coming up on the 10th of March and support for that will be needed and all help will be well received.

I not sure about anyone else but I can't wait for the snow, wind, cold and rain, to go away so I can get back to my home away from home - the flying field. I have had some fun however in the winter going to Anderson Airport and flying in a hanger there with foamies and seeing the pilots that come and fly there too.

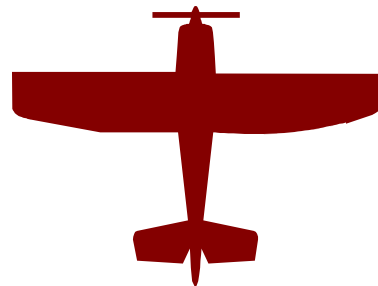

There are heli's of all sorts there. Small and large electrics, and I even seen a turbo powered one! On one trip I even got to meet Dave Brown and talked to him and he told of his past flying adventures. (that was cool)

It Looks like from the emails I'm getting and have seen, we have a new Park Dir. and assistant that I have not met yet. But it sounds like we have a good starting relationship for the new year!

That's all I have for now hope to see all at the Swap Meet.

See ya out there and happy modeling.

*Mike Bryant*  
*Vice President*
